MEMORANDUM FOR: Assistant for Technical Development, NPIC

SUBJECT: Materials Handling

1. [ ] called me Monday, 15 May, concerning the status of the Materials Handling Project. He said [ ] was questioning why the TDS had not come back to him with recommendations for splitting the Materials Handling Project. [ ] also wondered why representatives from TDS had not been going out to check on other materials handling projects by other agencies. TDS should go to ACIC to see what [ ] is doing and how good they are; TDS, for instance, should also check and see what Navy Oceanographic is doing in materials handling.
